

FUTURE LIVING

What contributes to improved sustainability in the hotel and hospitality sector?

Environmental awareness is on the rise in almost all areas of life. The hospitality sector is also experiencing a growing focus on sustainable solutions. **How do you think solutions can best be implemented?**

Tell us about your ideas!

follow this [link](#) to the contest

We are curious about **your ideas, personal experiences and wishes!** All you have to do is to **answer our two questions** in the innovation contest.

The **crowd and an expert jury vote for a green idea** as the winner according to given criteria. The **winner receives a solar-powered power bank or an invite for attending a roundtable** of the hospitality sector.

We are eager to hear your ideas by **18 February 2024!**
